Life Education 2020

Life Education has been empowering children and young people to make safer and healthier choices through education for nearly 40 years.

Life Education provides positive, preventative drug and health education programs aimed to encourage young people to make smart life choices for a healthy future.

The highly skilled Life Education educators, utilising their experience and training, work with schools to develop programs to support the provision of drug and health education within the school. All classes will be attending an age specific session which is designed to assist students with:

- acquiring age appropriate knowledge to support informed health choices
- developing and practicing skills and strategies to act upon individual decisions
- recognising the values and attitudes that may influence lifestyle choices and behaviours

Life Education NSW and the Healthy Harold mobile classroom will be visiting on

Monday 2nd November – Friday 6th November 2020

The Life Education programs are one hour in duration for students in K-2 and 1.5 hours for students in Years 3 – 6.

The cost is usually \$10.00 per student which covers the cost of their lesson and workbook.

A massive thank you to the P&C association for subsidising \$5.00 per child to keep costs down for families.

Due to their generosity, the program will cost \$5.00 per student.

Note: Due to Covid-19, we ask that all payments be made online.

Chris Mensforth

Life Education Coordinator

Mary Hunt

Principal

Please return the permission slip below and pay online by Friday 23rd October 2020.
